

PIR Motion Sensor With Led Lamp, Model : HC60

MODEL : HC 60

This is an Energy Saving Automatic Sensor with LED lamp, adopting integrated circuit and precise detecting components. It will be switched ON the LED Lights when someone comes in the detection range of the sensors & light will go off automatically once they leave the room. This unit is also suitable for security purpose. This sensor is having compact & excellent design.

Features

1. PIR Sensor with LED Light
2. LUX Level & Time Adjustable
3. Wall Mount Suitable

Specification

Detection Range : 180°
Power Source : 220V-240V/AC
Power Frequency : 50Hz
Rated Load : Max. 25W(12PCS LED)
Detection Range : Max.12m (24°C)
Time Delay : 10sec±3sec to 7min±2min(adjustable)
Ambient Light : <3-2000LUX(adjustable)
Detection Motion Speed : 0.6-1.5m/s
Protection Class : IP44

Detection Pattern

Applications

1. Covered Parking Area
2. Back yard / Corridor
3. Stairways / Basement
4. Garage / Malls
5. Stores / Lifts
6. Semi Covered Terrace
