

## PIR Sensor BV 501 12 VDC Ceiling Mount

**Model: LC – BV 501 12 VDC**

### Features

1. Temperature compensation for improved catch performance at critical temperatures
2. Patented Multi-Level Signal Processing (MLSP) for accurate detection of human IR energy over a broad range of temperatures
3. Sensitivity adjustment to configure the detector for normal or hostile environments
4. High-level static and transient protection
5. Exceptional white light immunity
6. Excellent RF immunity
7. Digital signal analysis for consistent detection throughout the coverage pattern
